7.06.010 Findings and purpose.

The Board of Supervisors of the County of Glenn do find that:

The voters of the State of California passed the California Children and Families First Act of 1998. The act recognizes that there is a compelling need in California to create and implement a comprehensive, collaborative, and integrated system of information and services to promote, support, and optimize early childhood development from the prenatal stage to five (5) years of age.

The act further recognizes that there is a compelling need in California to ensure that early childhood development programs and services are universally and continuously available for children until the beginning of kindergarten. Proper parenting, nurturing, and health care during these early years will provide the means for California’s children to enter school in good health, ready and able to learn, and emotionally well developed.

It is the intent of this ordinance to facilitate the creation and implementation of an integrated, comprehensive, and collaborative system of information and services to enhance optimal early childhood development. This system should function as a network that promotes accessibility to all information and services from any entry point into the system. It is further the intent of this ordinance to emphasize local decision making, to provide for greater local flexibility in designing delivery systems, and to eliminate duplicate administrative systems.

The California Children and Families First Act of 1998 provides for funding through an excise tax on tobacco products in order to implement the goals and objectives which are outlined in the act itself. It is the further intent of this ordinance to create Glenn County's Children and Families First Commission and Glenn County's Children and Families First Trust Fund in order to receive funding through the act and to implement the goals and objectives outlined in the California Children and Families First Act of 1998.

Upon the failure, neglect or refusal of any owner or agent or occupant so notified, to properly dispose of litter dangerous to the public health, safety or welfare within five days after receipt of written notice provided for in Section 7.08.210, or within seven days after the date of such notice in the event the notice is returned to the health

officer because of inability to make delivery thereof, provided the notice was properly addressed to the last known address of such owner, or agent or occupant, the health officer is authorized and empowered to pay for the disposing of such litter or to order its disposal by the county. (Ord. 551 § 6 (g) (3) (b), 1972.)

(Ord. 551 § 8, 1972.)

ARTICLE II
COLLECTION, HAULING, AND TRANSPORTATION
--PERMIT AND LICENSE

7.08.270 Permit and license required.

It is unlawful for any person to collect, haul or transport refuse on any highway within the unincorporated territory of the county without first making application to the health department of the county and receiving a license to engage in such occupation. The provisions of this section shall not apply to persons hauling household refuse or residue from their own residence nor to farming or agricultural operations, nor to municipalities or public agencies, nor industrial, commercial and business establishments or to building contractors or any of these hauling their own refuse or refuse generated by themselves. It is the intent of this section to prohibit any person from hauling refuse for hire without first receiving a permit to engage in the refuse collection business. (Ord. 551 § 9, 1972.)

7.08.280 Permit and license--Application form.

Applicants for a permit and license under this chapter must file with the health department a verified application in writing on a form furnished and approved by the health department which shall have the following information:

- A. Name and description of the applicant;

- C. Trade and firm name;
- D. If a joint venture or a partnership or a limited partnership, the names of all partners and their percentage of participation and their permanent addresses;
If a corporation, the names and permanent addresses of all the stockholders and the officers and the percentage of participation of each;
- E. That the applicant has arranged for the disposal of all refuse collected or transported by him at a county disposal area where the same may be legally accepted and disposed;
- F. The location of the disposal area;
- G. Facts showing the applicant is qualified to render efficient refuse collection service;
- H. That the applicant owns or has under control, in good mechanical condition, sufficient equipment to adequately conduct the business of refuse collection if granted a permit;
- I. That the vehicles and equipment conform to all applicable provisions of this chapter;
- J. That the applicant show to the satisfaction of the health department that the issuance of a permit is in the public interest and there is a need for a permit to be issued;
- K. A definite description of the area the applicant proposes to serve;
- L. Such other facts or information as the health department may require.

(Ord. 551 § 10, 1972.)

7.08.290 Permit--Application--Approval.

If the health department finds that the statements in the application are true, that the present licensee in the particular area is unable to properly and completely perform all required and necessary collection duties and services, that the applicant is capable of complying with the provisions of this chapter and the rules and regulations of the health department, the department may recommend the issuance of a permit for the collection of the refuse. The issuance will then be approved or denied by the board. (Ord. 551 § 11(a), 1972.)

7.08.300 Permit--Revocation and cancellation--Change of ownership.

The permit issued may be revoked and cancelled at the option of the board in the event there is a change of ownership of any kind or nature of the operating company or by the person to whom a permit is issued unless approval therefor has first been obtained in writing from the board.

The foregoing shall apply to changes in stock ownership in corporations, changes in partnerships or limited partnerships or percentage of participation therein, or transfer from an individual to an individual of any interest in the operating company and shall further apply whether the same be voluntary or involuntary. (Ord. 551 § 11(b)(part), 1972.)

7.08.310 Statement of ownership required.

The permittee shall file a statement of ownership with the board on July 1st of each year and shall verify same as being true and correct under the penalty of perjury. This statement shall be in such form as may be prescribed therefor by the health department. (Ord. 551 § 11(b)(part), 1972.)

7.08.320 Permit--Application--Denial.

The board may deny an application on the grounds of infeasibility. Whenever a new application is filed under the provisions of this chapter, for a permit to serve an area in the county where a permit already exists, the board, after due investigation, may find and determine, as a matter of fact, that there does not exist in the area sufficient potential sources of refuse to justify granting of an additional separate and distinct permit for the area. Predicated on such findings, the board may deny the application for a permit on the grounds that the granting of such new permit is not economically or financially feasible nor in the public interest and welfare. (Ord. 551 § 11 (c), 1972.)

7.08.330 Permit--Renewal.

Permits shall be renewed upon expiration thereof for a similar term provided the health department finds from the facts that the permit holder has, during the period of the expiring permit, operated in conformity with the provisions of this chapter and the rules and regulations of the health department, and that he is capable of continuing operation in conformity with the provisions of this chapter or subsequent refuse ordinances and with the rules and regulations of the department. (Ord. 551 § 12(a), 1972.)

7.08.340 Permit--Cancellation for inactivity.

If the permit is and remains inactive for thirty days, the director may request the board to cancel the permit. (Ord. 551 § 12(b), 1972.)

7.08.350 Permit--Renewal--Maximum term.

The health department, upon written request of any permit holder, shall have the right to renew any permit up to two years prior to the expiration thereof, provided that such renewed permit will not become effective until the expiration of the existing permit, and further provided that the maximum term of each such renewal shall not exceed ten years. (Ord. 551 § 12(c), 1972.)

7.08.360 Permit--Term.

All permits issued under this chapter shall be effective for five years from the date of issue unless a longer term, not to exceed ten years, is approved by the board. (Ord. 556 § 1, 1972; Ord. 551 § 13(a), 1972.)

7.08.370 Permit and service fees.

The Board of Supervisors may establish fees by resolution for permits issued and services rendered by the County under this chapter. (Ord. 1052 § 16, 1995; Ord. 551 § 13(b), 1972.)

7.08.380 Fees--Deposit to general fund.

The health department shall deposit all fees received hereunder to the general fund or to such other fund as the board may designate. (Ord. 551 § 13(c), 1972.)

7.08.390 New applicant--Permit required.

Every new applicant who desires to engage in the occupation of hauling refuse in the unincorporated areas of the county after October 1, 1972, shall obtain a permit hereunder prior to commencing operations or engaging in such operation. (Ord. 551 § 13(d), 1972.)

7.08.400 Performance bonds required.

Before issuing any permit under the provisions of this chapter, the health department shall require the applicant as a condition to the issuance of the permit to post with the health department a cash bond in the sum of two thousand five hundred dollars or a surety in the same amount furnished by a corporate surety authorized to do business in the state, payable to the county. The bond shall be conditioned upon full and faithful performance by the permittee of his obligations under the applicable provisions of this chapter, and shall be kept in full force and effect by the permittee throughout the life of the permit and all renewals thereof; provided, however, that if the applicant

has less than one thousand but more than five hundred customers, he shall post a cash or surety bond in the sum of one thousand dollars; if said applicant has five hundred customers or less, he shall post a cash or surety bond in the sum of five hundred dollars.

The board from time to time may by resolution establish such additional bond requirements as they may deem necessary in the event they determine the foregoing bond requirements constitute insufficient protection to the county. (Ord. 551 § 14(a), 1972.)

7.08.410 County not liable.

As a condition of the county issuing a permit, the applicant agrees to the terms of Sections 7.08.400 through 7.08.430. The permittee shall appear and defend all actions against the county arising out of the exercise of the permit, and shall indemnify and save the county, its officers, employees and agents harmless of and from all claims, demands, actions, or causes of actions of every kind and description resulting directly or indirectly, arising out of, or in any way connected with the exercise of the permit. (Ord. 551 § 14(b), 1972.)

7.08.420 Public liability and bodily injury insurance required.

The permittee shall obtain and keep in force during the term of said permit, public liability and bodily injury insurance in an amount not less than five-hundred-thousand dollars (\$500,000.00) for injuries or death to any one person and not less than one-million dollars (\$1,000,000.00) for injuries or death to more than one person arising out of any one accident or occurrence; property damage liability insurance in an amount not less than one-hundred-thousand dollars (\$100,000.00) and Worker's Compensation insurance covering all employees of the permit holder. Copies of such policies, or certificates evidencing such policies, shall be approved by the County Counsel and filed with the County Clerk. The County shall be named as an additional insured. All policies shall contain a provision requiring a ten-day notice to be given the County prior to cancellation, modification or reduction of limits. The amounts of public liability insurance for bodily injury and property damage shall be subject to review and adjustment by the Board annually at the Board's option. All insurance policy anniversary dates will be July 1 of each year. (Ord. 1052 § 17, 1995; Ord. 551 § 14(c), 1972.)

7.08.430 Trucks--State code compliance required.

Before any permit is issued, the applicant's trucks must comply with the regulations as set forth in the California Motor Vehicle Code and this chapter. (Ord. 551 § 14(d), 1972.)

7.08.440 Territorial provision.

The health department shall specify in all refuse collector's permits or renewal thereof, the territory as specified in the application within which the permittee may collect refuse within the county, and no refuse collector shall, at any time, collect refuse in the county outside the territorial limits fixed in the permit issued to him. The territory so specified in any such permit may be modified by the department only after following the procedures set forth above for licensing a new applicant. In the event the department decides to decrease the area of a permittee, the permittee shall be given a thirty-day written notice thereof before it shall become effective. During such thirty day period, permittee may request a review thereof by the board. (Ord. 551 § 15, 1972.)

7.08.450 Permittee--Compliance with service requests.

As a health and safety measure, no collector shall be required to service containers of over thirty-two gallon capacity and shall not exceed eighty pounds weight when filled for removal, except when such container or containers are designed for mechanical emptying pursuant to regulations prescribed by the County. - D. "Shipment" shall mean any article or thing, which is, may be, or has been transported from one place to another.
- E. "Person" shall include firms, corporations, companies or associations.
- F. "Infestation" shall mean the detection of two or more adult OLFF within one life cycle and within a one mile radius, or the detection of multiple life stages indicating a breeding population in a non-regulatory situation.

- G. "Restricted Origin" shall mean one in which one or more OLFF infestations have been detected and confirmed by the CDFA or an origin which is not conducting California Department of Food and Agriculture approved surveys and has not adopted restrictions on the movement of hosts and possible carriers to prevent the artificial spread of OLFF into that area. (Ord. 1127 § 2, 2000)

7.27.030 Findings.

The olive fruit fly, *Bactrocera oleae*, is a serious pest not known to occur in Glenn County. Damage caused by this insect includes premature drop of infested fruit, reduction of the usable pulp of infested fruit, and reduction of oil from infested fruit with the oil having an off-color; thereby, reducing production of olive fruit and fruit quality. Economic losses would be suffered by the County's olive industry if this insect pest were introduced. The State of California has repealed the state interior quarantine against the olive fruit fly. This ordinance provides necessary protection to the County's olive industry from the olive fruit fly. (Ord. 1127 § 2, 2000)

7.27.040 Restrictions on movement of plants/nursery stock.

No person shall move or ship into the County any host plants/nursery stock from a restricted origin, except under the following conditions:

- A. The Shipment is transiting the county to a destination outside of the county without undue delay or diversion; or,
- B. All fruit and debris have been removed from the plants prior to shipment and the shipment except transiting shipments is accompanied by a certificate issued by the agricultural officials at origin affirming that the shipment is in compliance with the requirements of this ordinance. (Ord. 1127 § 2, 2000)

7.27.050 Restrictions on movement of olive fruit.

- A. No restriction is placed by this ordinance on the shipment of processed olive fruit into the county (treated, brined, canned, etc.)
- B. No person shall move or ship unprocessed olive fruit into or through the county unless the shipment is tarped or otherwise covered/enclosed in a manner that prevents in-transit fruit spillage/loss or exposure to olive fruit fly.
 1. Individual bin identification tags are required for all shipments.
 2. No person shall move or ship into the County any unprocessed olive fruit from a restricted origin, except under the following conditions:
 - a. The shipment is transiting the county to a destination outside of the county without undue delay or diversion; or,
 - b. The shipment originates from a non-infested orchard as determined by California Department of Food and Agriculture approved surveys conducted by the agricultural official at origin; or,
 - c. The shipment is being moved from an orchard in which OLFF has been detected, under a protocol (including compliance agreements) approved by the Agricultural Commissioner which requires either treatment or mass trapping at origin and prescribed handling of waste and culls at destination; or,
 - d. The shipment is being moved under a pest mitigation protocol approved by the Agricultural Commissioner under destination county compliance agreements with processing of the olives within four (4) hours after arrival and prescribed handling of waste and culls; and,
 - e. Each shipment, except transiting shipments, shall be accompanied by a certificate issued by the agricultural official at origin affirming that the shipment is in compliance with the requirements of this ordinance are met.
(Ord. 1127 § 2, 2000)

7.27.060 Abatement of olive fruit fly.

Shipments of restricted host materials, arriving without certification or in which a viable OLFF life stage is detected, will be treated or destroyed under the supervision of the Agricultural Commissioner, returned to origin, or shipped to an approved destination within the OLFF infested area. The owner of the shipment is responsible for the costs of the aforementioned options. The Agricultural Commissioner may charge the owner of the shipment for the cost of supervising the treatment of destruction of the shipment.

If an OLFF infestation is detected in any commercial agricultural production area (in commercial or non-commercial plantings) within the County, the pest shall be treated or mass trapped at the cost of the property owner or leaseholder, in a manner approved by and under the supervision of the Agricultural Commissioner, the pest shall be abated as provided in Section 5401 *et seq.* of the Food and Agricultural Code of California. (Ord. 1127 § 2, 2000)

7.27.070 Movement of host material from infested locations.

Host material from a nursery, orchard, or other property in the County in which an OLFF infestation has been detected is prohibited movement from said location unless the host material is treated, handled, or processed under the supervision of the Agricultural Commissioner. The Agricultural Commissioner may charge the owner of the shipment for the cost of supervising said activities. (Ord. 1127 § 2, 2000)

7.28.010 Authority.

This chapter is enacted pursuant to the authority of Sections 14930 and 14931 of the Health and Safety Code of the state of California, wherein it is provided that the board may enact ordinances to compel the owners, lessees, or occupants of buildings, grounds or lots in the unincorporated areas of the county to cut and remove hazardous weeds, rubbish, refuse and noxious vegetation from such property and adjacent sidewalks. (Ord. 586 § 1, 1974.)

³ For statutory provisions on the abatement of hazardous weeds, etc., by counties, see Health & Saf. Code § 14875 et seq.

7.28.020 Findings.

The board finds and declares that the uncontrolled growth and/or accumulation of dirt, grass, weeds or other obstructions on sidewalks, parkings, streets, or in natural drainage channels, and that the growth and/or accumulation on lands of lots of grass, weeds, rank growths, brush, low hanging tree foliage, rubbish or other materials dangerous or injurious to neighboring property or the health, safety, or welfare of residents of the vicinity is a public nuisance in that it creates conditions tending to reduce the value of private property, promote blight and deterioration, create drainage problems and flooding of county roads and highways, invite plundering, create fire hazards, create traffic hazards, constitute an attractive nuisance creating a hazard to health and safety of minors, create a harborage for rodents and insects, and be injurious to the health, safety and general welfare of residents of the vicinity, and therefore may be abated as such in accordance with the provisions of this chapter. (Ord. 586 § 2, 1974.)

7.28.030 Definitions.

- A. "Noxious vegetation" includes and is synonymous with "weeds."
- B. "Refuse" is all inclusive and means all types of rubbish and garbage and includes, but is not restricted to, putrescible or nonputrescible solid wastes both combustible and noncombustible.
- C. "Rubbish" includes all the following, but is not restricted to nonputrescible wastes, such as paper, cardboard, grass clippings, tree or shrub trimmings, wood, bedding, crockery, rubber tires, construction waste, discarded materials and debris, and similar waste materials.
- D. "Weeds" as used in this chapter, includes any of the following:
 - 1. Weeds which bear seeds of a downy or wingy nature;
 - 2. Sagebrush, manzanita, chaparral, and any other brush or weeds which attain such large growth as to become, when dry, a fire menace to adjacent improved property;
 - 3. Weeds and grasses which are otherwise noxious;
 - 4. Poison oak and poison ivy when the conditions of growth are such as to constitute a menace to the public health;
 - 5. Dry grass, stubble, brush, litter, or other flammable material which endangers the public safety by creating a fire hazard;
 - 6. Weeds, cattails, willows and other foliage and rank growths which tend to clog and obstruct the flow and drainage of water in natural drainage channels and ditches;
 - 7. Trees with low branches, rank growth and heavy foliage near road and highway intersections which obstruct visibility and thereby create vehicular traffic hazards.
- E. "Enforcing officer" as used in this chapter includes any of the following:

7.28.040 Concurrent authorities.

This chapter is not the exclusive regulation for weeds, rubbish, refuse and noxious vegetation abatement within the unincorporated area of the county. It supplements and is in addition to the other regulatory codes, statutes, and ordinances heretofore and hereafter enacted by the county, the state or any other legal entity or agency having jurisdiction. (Ord. 586 § 4, 1974)

7.28.060 Inspection.

The enforcing officer may enter upon private or public property whenever he has reasonable cause to believe there exists a condition which is in violation of this chapter; provided, however, that this right to inspection and entry upon the land may not be construed as granting the right to enter into any dwelling or appurtenances thereto which may be located on the land. (Ord. 821 § 3, 1984; Ord. 586 § 6, 1974.)

7.28.070 Abatement notice--Issuance.

 - 2. The three hundred (300) foot limitation does not apply if adequate flight dispersing barriers (such as a fence, tree or line of trees or building) are constructed and maintained which, in the judgment of the Agricultural Commissioner, serve to prevent the apiary or apiaries from constituting a nuisance to nearby residents or the public.

 - G. Contain a statement that the person(s) in possession or control of the apiary is required to abate the nuisance within fourteen (14) calendar days after the date that said Notice was served.
 - H. Contain a statement that the person(s) in possession or control of the apiary, or the owner or occupant of the location premises, may, within ten (10) calendar days after the date that said Notice was served, make a request in writing to the Clerk of the Board of Supervisors for a hearing to appeal the determination of the Commissioner that the conditions existing constitute a public nuisance or to show other cause why those conditions should not be abated in accordance with the provisions of this chapter.
 - I. Contain a statement that unless the person(s) in possession or control of the apiary or the owner or occupant of the location premises abates the nuisance or requests a hearing before the Board of Supervisors within the time prescribed in the Notice, the Commissioner will abate the nuisance. It shall also state that the abatement costs, including administrative costs, may be made a special assessment added to the County assessment roll and become a lien on the real property or be placed on the unsecured tax roll.
- (Ord. 1201 § 1, 2008.)

7.30.180 Service of Notice.

- A. The Notice set forth in section 7.30.160 shall be served by delivering it personally to the person(s) in possession or control of the apiary and the owner(s) and occupant(s) of the location premises or by mailing it by regular United States mail, together with a certificate of mailing, to the person(s) in possession or control of the apiary, if ascertainable from the records of the Commissioner, and to the occupant of the property at the address thereof, and to any non-occupying owner at his or her address as it appears on the last equalized assessment roll, except that:
 1. If the records of the county assessor show that the ownership has changed since the last equalized assessment roll was completed, the Notice shall also be mailed to the new owner at his or her address as it appears in said records.

2. In the event that, after reasonable effort, the Commissioner is unable to serve the Notice as set forth in this section, service shall be accomplished by posting a copy of the Notice on the real property upon which the nuisance exists as follows: Copies of the Notice shall be posted along the frontage of the subject property and at such other locations on the property reasonably likely to provide notice to the owner. In no event shall fewer than two (2) copies of the Order be posted on a property pursuant to this section.
- B. The date of service is deemed to be the date of deposit in the mail, personal delivery, or posting, as applicable.
(Ord. 1201 § 1, 2008.)

7.30.190 Administrative Review.

- A. Any person upon whom a Notice to Abate Bee Nuisance has been served may appeal the determination of the Commissioner that the conditions set forth in the Notice constitute a public nuisance to the Board of Supervisors, or may show cause before the Board of Supervisors why those conditions should not be abated in accordance with the provisions of this Chapter. Any such administrative review shall be commenced by filing a written request for a hearing with the Clerk of the Board of Supervisors within ten (10) calendar days after the date that said Notice was served. The written request shall include a statement of all facts supporting the appeal. The time requirement for filing such a written request shall be deemed jurisdictional and may not be waived. In the absence of a timely filed written request that complies fully with the requirements of this Section, the findings of the Commissioner contained in the Notice shall become final and conclusive on the eleventh day following service of the Notice.
- B. Upon timely receipt of a written request for hearing which complies with the requirements of this Section, the Clerk of the Board of Supervisors shall set a hearing date not less than seven (7) days or more than thirty (30) days from the date the request was filed. The Clerk shall send written notice of the hearing date to the requesting party, to any other parties upon whom the Notice was served, and to the Commissioner.
- C. Any hearing conducted pursuant to this chapter need not be conducted according to technical rules relating to evidence, witnesses and hearsay. Any relevant evidence shall be admitted if it is the sort of evidence on which responsible persons are accustomed to rely in the conduct of serious affairs regardless of the existence of any common law or statutory rule which might make improper the admission of the evidence over objection in civil actions. The Board of Supervisors has discretion to exclude evidence if its probative value is substantially outweighed by the probability that its admission will necessitate undue consumption of time.
- D. The Board of Supervisors may continue the administrative hearing from time to time.
- E. The Board of Supervisors shall consider the matter de novo, and may affirm, reverse, or modify the determinations contained in the Notice to Abate Bee Nuisance. The Board of Supervisors shall issue a written decision in the form of a resolution which shall include findings relating to the existence or nonexistence of the alleged nuisance as well as findings concerning the propriety and means of abatement of the conditions set forth in the Notice. Such decision shall be mailed to or personally served upon the party requesting the hearing, any other parties upon whom the Notice was served, and the Commissioner.
- F. The decision of the Board of Supervisors shall be final and conclusive.
(Ord. 1201 § 1, 2008.)

7.30.200 Summary Abatement.

Notwithstanding any other provision of this chapter, when any nuisance described in Section 7.30.140 constitutes an immediate threat to public health or safety, and when the procedures set forth in Sections 7.30.160 through 7.30.190 would not result in abatement of that nuisance within a short enough time period to avoid that threat, the Commissioner may direct any officer or employee of the County to summarily abate the nuisance. The Commissioner shall make reasonable efforts to notify the persons identified in Section 7.30.160, but the formal notice and hearing procedures set forth in Sections 7.30.170 through 7.30.190 shall not apply. The County may nevertheless recover its costs for abating that nuisance in the manner set forth in this chapter. (Ord. 1201 § 1, 2008.)

7.30.210 Enforcement of Abatement Order.

- A. Whenever the Commissioner becomes aware that an owner or occupant has failed to abate any nuisance within fourteen (14) days of the date of service of the Notice to Abate Bee Nuisance, unless timely appealed, or of the date of the decision of the Board of Supervisors requiring such abatement, the enforcing officer may take one or more of the following actions:
 - 1. Enter upon the property and abate the nuisance by County personnel or by private contractor under the direction of the enforcing officer. The Commissioner may apply to a court of competent jurisdiction for a warrant authorizing entry upon the property for purposes of undertaking the work. If any part of the work is to be accomplished by private contract, that contract shall be submitted to and approved by the Board of Supervisors prior to commencement of work. Nothing herein shall be construed to require that any private contract under this Code be awarded through competitive bidding procedures where such procedures are not required by the general laws of the State of California;
 - 2. Request that the County Counsel commence a civil action to redress, enjoin, and abate the public nuisance; and/or
 - 3. Refer the matter to the District Attorney for misdemeanor prosecution under Section 7.30.320.

(Ord. 1201 § 1, 2008.)

7.30.220 Liability for Costs.

- A. In any abatement action taken by the County pursuant to this chapter, whether by administrative proceedings, judicial proceedings, or summary abatement, each person who causes, permits, suffers, or maintains the nuisance to exist shall be liable for all costs incurred by the County, including, but not limited to, administrative costs, and any and all costs incurred to undertake, or to cause or compel any responsible party to undertake, any abatement action in compliance with the requirements of this chapter, whether those costs are incurred prior to, during, or following enactment of this Chapter.
- B. In any action by the Commissioner to abate a nuisance under this Chapter, whether by administrative proceedings, judicial proceedings, or summary abatement, the prevailing party shall be entitled to a recovery of the reasonable attorney's fees incurred. Recovery of attorney's fees under this subdivision shall be limited to those actions or proceedings in which the County elects, at the initiation of that action or proceeding, to seek recovery of its own attorney's fees. In no action, administrative proceeding, or special proceeding shall an award of attorney's fees to a prevailing party exceed the amount of reasonable attorneys' fees incurred by the County in the action or proceeding.
- C. The costs set forth in this Section shall be a personal obligation of each person who causes, permits, suffers, or maintains the nuisance, jointly and severally with all other such persons, and may also be collected by special assessment and lien, as set forth in Sections 7.30.170 and 7.30.270.

(Ord. 1201 § 1, 2008.)

7.30.230 Accounting.

The Commissioner shall keep an account of the cost of every abatement carried out and shall render a report in writing, itemized by parcel, to the Board of Supervisors showing the cost of abatement and the administrative costs for each parcel. (Ord. 1201 § 1, 2008.)

7.30.240 Notice of Hearing on Accounting; Waiver by Payment.

Upon receipt of the account of the Commissioner, the Clerk of the Board of Supervisors shall deposit a copy of the account pertaining to the property of each owner in the mail addressed to the owner and include therewith a notice informing the owner that, at a date and time not less than five (5) business days after the date of mailing of the notice, the Board of Supervisors will meet to review the account and that the owner may appear at said time and be heard. The owner may waive the hearing on the accounting by paying the cost of abatement and the cost of administration to the enforcing officer prior to the time set for the hearing by the Board of Supervisors. Unless otherwise expressly stated by the owner, payment of the cost of abatement and the cost of administration prior to said hearing shall be deemed a waiver of the right thereto and an admission that said accounting is accurate and reasonable. (Ord. 1201 § 1, 2008.)

7.30.250 Hearing on Accounting.

- A. At the time fixed, the Board of Supervisors shall meet to review the report of the Commissioner. An owner may appear at said time and be heard on the questions whether the accounting, so far as it pertains to the cost of abating a nuisance upon the land of the owner is accurate and the amounts reported reasonable. The cost of administration shall also be reviewed.
- B. The report of the enforcing officer shall be admitted into evidence. The owner shall bear the burden of proving that the accounting is not accurate and reasonable.
- C. The Board of Supervisors shall also determine whether or not the owner consented to the presence of the apiary determined to constitute a nuisance. If it is determined at the hearing that the apiary was placed on the premises without the consent of the owner of such premises and that he has not subsequently acquiesced in its presence, costs for the abatement shall not be assessed against such premises or otherwise attempted to be collected from the owner of such premises.

(Ord. 1201 § 1, 2008.)

7.30.260 Modifications.

The Board of Supervisors shall make such modifications in the accounting as it deems necessary and thereafter shall confirm the report by resolution. (Ord. 1201 § 1, 2008.)

7.30.270 Special Assessment and Lien.

The Board of Supervisors may order that the cost of abating nuisances pursuant to this Chapter and the administrative costs as confirmed by the Board be placed upon the County tax roll by the County Auditor as special assessments against the respective parcels of land, or placed on the unsecured roll, pursuant to section 25845 of the Government Code; provided, however, that the cost of abatement and the cost of administration as finally determined shall not be placed on the tax roll if paid in full prior to entry of said costs on the tax roll. The Board of Supervisors may also cause notices of the abatement lien to be recorded against the respective parcels of real property pursuant to section 25845 of the Government Code. (Ord. 1201 § 1, 2008.)

7.30.280 Administrative Penalties.

- A. In addition to any other remedy or penalty prescribed in this chapter, each violation of this chapter may be subject to an administrative penalty of up to \$100.00 per day for each hive causing or contributing to the violation. The administrative penalty may be imposed via the administrative process set forth in this section, as provided in Government Code section 53069.4, or may be imposed by the court if the violation requires court enforcement without an administrative process.
- B. In the case of a continuing violation, if the violation does not create an immediate danger to health or safety, the Commissioner or the court shall provide for a reasonable period of time, not to exceed three (3) days, for the person responsible for the violation to correct or otherwise remedy the violation prior to the imposition of administrative penalties.
- C. In determining the amount of the administrative penalty, the Commissioner or the court shall take into consideration the nature, circumstances, extent, and gravity of the violation or violations, any prior history of violations, the degree of culpability, economic savings, if any resulting from the violation, and any other matters justice may require.
- D. The Commissioner may commence the administrative process by issuance of a Notice of Proposed Administrative Penalty, which shall state the amount of the proposed administrative penalty and the reasons therefore. The Notice shall inform the recipient of their right to request a hearing before the Board of Supervisors in accordance with this section. If such a hearing is not requested within thirty (30) days after issuance of the Notice, the proposed penalty shall become final and conclusive and the person to whom the Notice was issued shall immediately make payment of the penalty amount to the County.
- E. If the person to whom the Notice is issued requests a hearing before the Board of Supervisors, the person shall be notified by certified mail when the matter has been set for hearing. After the hearing, the Board of Supervisors may impose, modify, or disapprove, in whole or in part, by its own order, the proposed penalty set forth in the Notice. Any order of the Board of Supervisors shall become effective upon issuance thereof and shall be served by certified mail upon the appellant. Payment of an administrative penalty specified in the Board of Supervisors' order shall be made to the County within thirty (30) days of service of the order.
- F. In addition to any other remedy, the County may prosecute a civil action through the Office of the County Counsel to collect any administrative penalty imposed pursuant to this Section. (Ord. 1201 § 1, 2008.)

7.30.290 No Duty to Enforce.

Nothing in this Chapter shall be construed as imposing on the Commissioner or the County of Glenn any duty to issue a Notice to Abate Bee Nuisance, nor to abate any nuisance, nor to take any other action with regard to any nuisance, and neither the Commissioner nor the County of Glenn shall be held liable for failure to issue an order to abate a nuisance, nor for failure to abate any nuisance, nor for failure to take any other action with regard to any nuisance. (Ord. 1201 § 1, 2008.)

7.30.300 Remedies Cumulative.

All remedies provided for herein are cumulative and not exclusive, and are in addition to any other remedy or penalty provided by law. (Ord. 1201 § 1, 2008.)

7.30.310 Severability.

If any section, subsection, sentence, clause, portion, or phrase of this chapter is for any reason held illegal, invalid, or unconstitutional by the decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions hereof. The Board hereby declares that it would have passed this chapter and each section, subsection, sentence, clause, portion, or phrase hereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses, or phrases be declared illegal, invalid or unconstitutional. (Ord. 1201 § 1, 2008.)

7.30.320 Violation of Specified Provisions - Punishment.

Any violation of Chapter 7.30 of this title is a misdemeanor punishable as provided by law. (Ord. 1201 § 2, 2008.)

7.31.010 Purpose.

In Chapter 8 of Part 1 of Division 1 of the Food and Agriculture Code, commencing with Section 851, the Legislature established minimal requirements concerning Agriculture Theft Prevention. This article is adopted pursuant to Article XI, Section 7 of the California Constitution, which authorizes the County to exercise the police power of the State by adopting regulations promoting the public health, public safety, and the general welfare of its citizens, and Food and Agriculture Code Section 866. In this article, Glenn County establishes additional requirements regarding the transportation and identification of nut crops, including establishing a walnut buying period. It is the purpose and intent of this article to establish a means of verifying ownership of specified agricultural commodities in order to prevent and deter theft of these commodities and to provide a means for local enforcement of laws and regulations pertaining to the purchase and sale of these commodities. (Ord. 1243 § 1, 2013)

 - 2. If the possessor of the agricultural commodity is other than the grower of the commodity, a completed proof of ownership certificate in a form approved by the agricultural commissioner, or the requisite information set out in any alternative written form acceptable to the agricultural commissioner. Any form utilized for this purpose shall be signed by the possessor of the agricultural commodity and signed by the person who sold the agricultural commodity to the person in possession.
- I. “Seller” means a person who sells or attempts to sell an agricultural commodity to a buyer or other person.

It is the responsibility of a buyer to obtain the requisite information to permit completion of the proof of ownership certificate or alternative form. If an agricultural commissioner, or his or her designee, has probable cause to believe that any agricultural commodity is unlawfully possessed, he or she may request a peace officer to stop a vehicle for inspection. (Ord. 1243 § 1, 2013)

7.31.070 Retention of seized commodity.

Upon reasonable belief that a person is in unlawful possession of an agricultural commodity, the commodity, or any portion of a commodity, which is reasonably determined to be unlawfully possessed, may be seized and held by the agricultural commissioner, his or her designee, or any peace officer. 7.31.090 Disposition of agricultural commodities.

- A. If for any reason the commodity cannot be released to the rightful owner within forty-eight (48) hours after coming into the custody of the agricultural commissioner, or for any shorter period of time that the commissioner deems necessary in the case of perishable commodities, the commissioner may sell the commodity by public auction or any private sale at fair market value to a commercial packer of the commodity. Prior to any such sale the commissioner shall determine that the sale of the commodity will not impair the prosecution of any person who is or may be charged with a crime related to the commodity.
 - B. All of the proceeds derived from the sale of the commodity shall be held by the commissioner for a period of not less than six (6) months, during which time the lawful owner of the commodity may submit satisfactory proof of ownership and obtain possession of the proceeds. The commissioner may require the payment by the owner of an amount sufficient to cover the costs incurred for the storage and sale of the commodity, in an amount not to exceed the value of the commodity. If, after retention of the proceeds for a period of at least six (6) months, no demand is made or if proof of ownership is not supplied, the commissioner shall deposit the proceeds of the sale of the commodity in the general fund of the county.

(Ord. 1243 § 1, 2013)

7.31.110 Violations.

Any person violating any of the provisions of this article shall be guilty of a misdemeanor which shall be punishable as provided in the Code. This punishment is separate and independent from any punishment or penalty provided for under any other law or regulation, including forfeiture. (Ord. 1243 §1, 2013)

7.31.120 Civil penalties.

Pursuant to Food and Agriculture Code Section 885, rather than pursuing a civil prosecution, the agricultural commissioner may levy a civil penalty against any person violating the provisions of this article. The civil penalty for each violation shall be, for a first violation, a fine of not more than five hundred dollars (\$500). For a second or subsequent violation, the fine shall be not less than one hundred dollars (\$100), nor more than one thousand dollars (\$1,000). Before a civil penalty is levied, the person charged with the violation shall receive notice of the nature of the violation and shall be given an opportunity to be heard. This shall include the right to review the evidence and a right to present evidence on his or her own behalf. Subdivision (e) of Food and Agriculture Code Section 43003 shall apply to any fine levied pursuant to this section. (Ord. 1243 § 1, 2013)
